

## Central Mounted F-Modules

Single modules of the F Series including mains/power modules NE18 and NE18CTII are available with central mounting.

### Standard Designs:

- ZF12  
with threaded mounting M 12 × 0.75 and a metal knurled nut.
- ZF  
with threaded mounting M 14 × 1 optional with threaded plastic front panel or with knurled nut.
- ZFA  
like ZF but with indication button FA200.
- ZFL  
like ZF but with illuminated push-buttons FLB or FLC or FLC-LED.  
ZFL: you can select among these three illumination possibilities.

US F11      Europe FA200

F24      F200

F25      FLC

## NE 18 and NE 18CTII Mains / Power Switches

The mains/power switches NE18 and NE18CTII are available as single module or chassis-mounted together with F switches. Additional low-voltage auxiliary contacts optional.

Also available as single push-button switch with central bushing mounting.

- NE18CTII for 64 A inrush current
- NE18 for max. switching current 6 A (ohmic load), 4 A (inductive load,  $\cos \varphi = 0.6$ ), 36 A (inrush current)
- NE18 and NE18CTII with snap-in housing
- Standard single chassis available

### Button Removal

A button of a push-push button switch is only allowed to be removed in "OFF" (non-latching) position.
