

multimec® PCB Mount Pushbutton Switches

multimec specializes in the production of PCB mounted pushbutton switches. Our products are designed to be used in a wide variety of applications. Through the use of a modular approach to switch assembly the user is provided with a unique flexibility in his choice of options. multimec® switches are known for their crisp audible tactile feel although a “quiet” model is available for sensitive applications such as audio and conference equipment.

The multi-coloured keycaps, bezels and LEDs snap together to produce almost unlimited switch configurations. Customized keycaps and bezels can be manufactured for special applications.
