

multimec® Switches Under Foil

The use of multimec® under a foil overlay offers an attractive alternative to the traditional membrane switch. With a mechanical life of 10 million cycles, multimec® will outperform membrane switches under the most extreme conditions. multimec® switches can be specified with LED illumination to provide back lighting of the overlay for front panel applications. While mec does not manufacture foil overlays, our local distributors can help you locate sources of supply.

	Switches	Caps and Actuators	Overall Height (mm)	Diameter (mm)	Page
			6.4	6.5	27
		08.0-15.0	6.5	27	
		12.5 17.5-22.5	11.0 15.0	26	
		10.4-22.5	5.2 7.8 11.6 Square 5.2 x 5.2 7.8 x 7.8 11.6 x 11.6	28 29	
		14.9	9.6	15/13	
		19.1	14.3x14.3	26/13	
		16-22.5	6.5	21/13	
		14.9	10.6x10.6	19/13	
		14.9	10.6	19/13	

The size of the switches, caps, actuators and bezels listed may not correspond to the actual size.
